

# CAMERA CLUB

## “February 2012 Events”

### Showcase

Monday, Feb. 13th, 6:30 pm - CH3, DR2

**"Destination Myanmar" (formerly Burma)**

*presented by Tom Getz*

Tom's show will strive for the unusual, such as Yangon's remaining synagogue, a rare Buddhist cemetery, murals, life in a monastery, cave art, folk dances, costumed nats (spirits), jumping cats, and a Burmese choir. The show will feature portraits, video clips, and ethnic music - Tom's fantastic photography and narrative. *Refreshments will be served.*

### Special Interest Workshop

Tuesday, Feb. 14<sup>th</sup> - 1:30 pm – CH4 - Photography Classroom

*Mike Bray and Tom Getz*

#### “Wildlife Photography”

What's the secret of photographing wildlife? These two are masters and they will share their secrets with us. What's it like to stare into the eyes of a Big Cat? How quiet do you have to be? How big a lens do you need? An outline and handouts will be provided, so come with questions and enjoy the images shown by Mike and Tom.

### Multi-Subject Workshops

February 25th, from 1:30 to 4:00 pm.

These workshops are for anyone interested in learning more about their camera and about how to take great pictures with it. Become involved in the club, meet others who love to 'shoot' and learn! More on this very popular event will be in the Newsletter and by email.

### LECTURE: "COLOR AND LIGHT IN NATURE"

Monday, February 27th, 6:30 pm - CH3, DR2

**by David Knight Lynch, PhD**

What is a rainbow? Why is the sky blue? Why is the setting sun red and flattened? What is an aurora borealis? Is it really darkest before dawn? These and dozens of other questions about naturally occurring optical effects are explained with pictures and diagrams, along with tips on how to see and photograph them. Dr. Lynch is Senior Scientist at the Aerospace Corp. Come early, at 6:30 PM, for refreshments and to get a good seat.

**Everyone is welcome and it's FREE**

**No Print or Digital Critiques in February -**

**Print on Mar. 17 - Digital on Mar. 26th - so prepare!!!!**
